Meeting called to order at 12:00 p.m. (noon)

Public Open Meeting Act poster was pointed out on the front panel of Chamber Council.

Discussion and possible action: Resolution 2017-8 for the approval of application for federal assistance from the Land and Water Conservation Program for the purpose of playground equipment and enhancement, effective as of the date of approval. Village Administrator pointed out the need to upgrade the Village Playground, with some new equipment and refurbishing of existing equipment as well as the possibility of resurfacing the play area. Federal assistance is a 50/50 matching grant, As stated in the Charitable Gaming Regulations- County/ City Lottery (Keno) section 601.02C “ a county, city, or village may use its proceeds from the conduct of a lottery to build, improve, or maintain parks or recreation facilities or to sponsor amateur athletic leagues or programs, allowing for the Village 50% match to come from the Lottery proceeds. The administrator added that the children of Hemingford deserve a safe and fun place to play and enhance their outdoor experiences. Comments from residents stated that the current playground equipment had been in place for at least 12-15 years and in need of replacement or repair. Throughout outdoor play season there are several children and families that take advantage of the playground and should be maintained to optimize outdoor activities. Several other community comments echoed the same sentiment. Public suggestion was to have the Village Maintenance/ Utility Supervisor along with the Village Administrator complete a special study to assess the need and scope of the project.
